Laser warning signs of Vinyl foil after DIN 40008/EN 60825 and VDE 0837

As per VDE 0837 and BGV B2 (VBG 93) every laser facility has to be signed. According to the requirements the signs have to be durably labelled and installed easy readable and conspicuously.

Each laser facility (except class 1) must have a sign stating the maximum output values of laser radiation, pulse duration (if applicable) and transmitted wavelength
